

Additional Social Activities

getawaysgreece.com

The conference organizers have teamed up with Getaways Tours Greece to provide conference participants and guests with a number of tours and additional social activities options before, during, and after the conference.

A staff member from Getaways Tours will be available in a number of local hotels daily for you to arrange any additional social activities you may wish to organize.

Registered conference participants and their guests will be able to claim a discount using the code AMAGLOBAL.

You can either book via the website or by phoning in advance. Alternatively, the staff member visiting hotels will be able to help out with bookings and payment.

As tours have limited numbers and the fact that Santorini is a popular tourist destination, we advise booking in advance to avoid missing out.
